COOLWEX SOLAR DHW

SOLAR KITS FOR DRAIN HOT WATER HEATING

CATCH THE FREE AND EVERLASTING ENERGY OF THE SUN

Solar energy is one of the elementary conditions of our life on this planet. Exploitation of this given energy is, however, a reflection of our wisdom and awareness.

By making a decision to invest in the solar system for DHW heating and central heating support:

- we assure savings in energy costs for DHW heating of up to 80%,
- we provide convenience, safety, and warmth of our home,
- we act responsibly towards the environment in which we are living.

Main advantages:

- operating throughout the year, including in times of low temperatures and cloudy skies,
- big absorption regardless of the angle of the solar radiation
- the newest principle regarding the solar energy exploitation (Heat Pipe technology) assures maximum outcome,
- lack of hot water on behalf of low solar radiation is not possible
- solar cylinder is connected to the conventional heating source (such as heat pump, oil, gas etc.);
- quick and easy installation,
- all suitable quality certificates, including Solar Keymark.

Solar set includes:

- high-quality vacuum solar heater, working on Heat pipe technology,
- DHW boiler of suitable size,
- one-way solar station with a solar circulation pump,
- regulation SGC24,
- expansion vessel,
- antifreeze liquid,
- mounting kit for flat or sloped surfaces,
- collector ventilation set,
- small material for solar circuit.

Content of solar kits for DHW (drain hot water) heating:

number of water users	2 to 3 persons	3 to 4 persons	5 to 8 persons
kit COOLWEX	SOLAR DHW-200	SOLAR DHW-300	SOLAR DHW-500
vacuum collector - 20 HQ dimensions (WxHxD): 2010x1680x189	-	2	-
vacuum collector - 30 HQ dimensions (WxHxD): 2010x2420x189	1	-	2
gross area	4,9 m ²	6,8 m ²	9,8 m ²
net area	2,79 m ²	3,74 m ²	5,58 m ²
number of mounting kits	1	2	2
DHW boiler for sanitary water	200 l	300 l	500 l
one-way solar station	1	1	1
regulation SGC24	1	1	1
solar expansion wessel	24 l	35 l	50 l
antifreeze liquid	20 l	20 l	40 l
ventilation set	1	1	1
